
RESOURCE INTRODUCTION

COVID-19 IMPACT

"Inequalities widen for poorest young people in developing countries.."

[Oxford Uni March 2021 Report](#)

".....finds the impact of the pandemic on young people to be systematic, deep and disproportionate. It has been particularly hard on young people in lower-income countries. Young people are concerned about the future and their place within it"

[ILO Report August 2020](#)

500 hours of video are uploaded to YouTube **every minute**, on every conceivable subject, so it can be difficult and very time consuming to the find the most helpful videos!

The digital Youth Empowerment resource is a series of 24 topics set up as '**Youtube playlists**', which have been researched by a multinational team of young people.

This is a short introductory video to this resource: [Youth Empowerment Introduction](#)

Each topic is designed to bring together useful information, inspiring talks and encouraging songs on a range of topics that will be helpful to young people - age 16 to 25 years

The content has been carefully selected for individual or group use anywhere, where there is internet access

Each topic comprises 15-20 short videos - 50 mins total maximum each topic, but individual videos can be selected to watch from each 'playlist'

It can be helpful for groups of young people to watch these playlists together and to encourage discussion. Some form of projection may be essential

A Group Facilitators Guide is available with suggestions on audio/visual presentation: [Facilitators Guide](#)

Each of the 24 topics are shown as a picture with title

Just move mouse over any topic and click on it

This will take you to the Playlist on Youtube which will start and run through the whole playlist

You can pause or run at anytime and as all the selected vidoes are shown on the right you can if you wish choose to watch any of them

Other topics will be considered for reserach and addition.

Feedback on this resource and suggestions for additional topics are welcome
